“ *Mr Garrett wasn't in my life long but the time I did get to spend with him was priceless. I enjoyed listening to his stories and not only turquoise but the history of his family. He was a very interesting man. I went looking for turquoise shortly after his passing. I know he was with me exceptionally in my heart. I hope I can do him justice when I work with the turquoise and apply the methods he explained to me. He will be greatly missed. My condolences to his family.*
