

## Janet Ollie Hamilton

February 10, 1966 - July 24, 2020

Janet Hamilton, loving mother, grandmother, sister and friend passed from this earth July 24, 2020 in Midland, TX. As a long-time resident of Grants, NM, she was well known for her love of animals. She never hesitated to volunteer to help at the animal shelter, provide food for hungry animals, or even foster animals until they were able to be moved to their furever homes. Janet's biggest passion was her grandchildren. Everyone she met could see the pride in her face when she spoke of her grandchildren, in addition to the pictures she kept ready to show everyone possible. She will be greatly missed. Janet is preceded in death by her mother Judith, her father Joseph, her sister Marian, and several other family members. Janet leaves behind four children: Brandan from Grants, Tiffany (Shawn) from Midland, Jessica from Texas, and Zachary from Alaska; seven grandchildren: Dilylah, Angelo, Eli, Colton, Chase, Cheyenne, and Remington; siblings: Charlie from Farmington, Echo from Arkansas, Joseph from Colorado, and Alice from Colorado; very close family friends: Melanie and David Baca; and many others who loved her kind soul. Services will be announced at a later date.

“ *My name is Dean. I am the son of Alice, sister of Janet. I hadn't seen my aunt Janet in a very long time. But last I can recall, she was always happy when my mother, my siblings & I came to visit her. There honestly isn't much I remember that I can share. But from what I've heard, she was a compassionate woman full of love & care for others, especially her grandchildren & animals & has touched many lives before her time. Her passing is a reminder that we should cherish what time we have left with those we love because we never know when our time will come. Though Janet may be gone from this world, she lives on in the hearts & memories of all who will miss her. As a friend once told me, death is merely a minor inconvenience to the mortal coil. Meaning her body has been laid to rest, but her spirit continues to live on, watching down on all those dearest to her heart. I'm sure rather than mourn her death, she would want us to celebrate her life. She is at peace now, no longer suffering. She is kissing eternity in the afterlife now.*
