“ My Mother was a very influential person in my life. Her hard work and dedication to ensuring that we were all cared for and taken care of so that we as her children could be the best we all could be as citizens in this country. Albeit some of us fell short of this expectation but I will say that I have done exactly that and have used those tools to live my life to her standards. I wished that we could have spent more time together in her later years but others prevented this possibility to ever happen. Go Rest In Peace Momma!
