“ I just found out about my sweet friend, Ray because I was in the Hospital at the same time all this happened. We graduated High School together. Lately we've been playing games on Facebook together. While I was still in the hospital, I got a call from Glen and Iris Roland who told me about it. Love you, Ray. See you soon.

Ray was always so kind to me and helpful when I needed a strong person to help with a patient. I had moved and lost touch with him. God bless him and his family.
